SKILLS

Languages: Java, C++, C, DBMS, Python, JavaScript

Frameworks: HTML and CSS, React, NodeJS

Tools/Platforms: Git, GitHub, MySQL, Nmap

Soft Skills: Problem-Solving, Time Management, Team Player, Continuous Learner

PROJECTS

RHEL Security Log Monitoring & Intrusion Detection | RHEL 9, Linux, Bash Sep'26

- Developed a Bash-based host security monitoring tool to analyze RHEL SSH authentication logs and detect failed login and invalid-user activity.
- Implemented log parsing, source-address extraction, and frequency-based severity classification (LOW/MEDIUM/HIGH) for suspicious SSH activity.
- Automated security report generation containing authentication statistics, timestamps, usernames, source addresses, and recommended actions.
- Performed controlled SSH authentication tests and validated detection results using RHEL security logs.

Food Restaurant Website | HTML, CSS, JavaScript Nov' 24

- Developed a responsive restaurant website with structured navigation, restaurant information, and interactive frontend components.
- Designed reservation and hiring interfaces with hover effects, animations, and responsive layouts.
- Implemented JavaScript functionality for dynamic job listings and interactive sections, improving overall user experience.

CERTIFICATIONS / CERTIFICATE

Oracle AI Database Certified Foundations Associate Oracle	July' 26
